

# 3.5T7 MultiLite for your Home Deliveries

MultiLite is a multi-temperature isothermal body designed for combined delivery systems with a **great variety of goods** (fresh and frozen products, ice cream, dairy products, beverages, etc.). Modern **eutectic equipment** allows to simultaneously transport different temperature products, therefore reducing your fuel costs and increasing the efficiency of your logistics. MultiLite is **ideal for home deliveries** as it has a combination of separate compartments with different inside temperatures.

up to **900 kg** payload

**24 months** isothermal body warranty

mobile service team

## Technical specifications
